

Funding Committee

- I. The WIC Funding Committee is made up of the State WIC Director, the State Budget Coordinator, and 4 Local Health Officers as directed by the Utah Association of Local Health Officers. Any Local Health Officer or local WIC Director is welcome to attend.
- II. The committee meets every summer to discuss the estimated funding available for the upcoming federal fiscal year. A funding formula is agreed upon and used for the entire year.
- III. Once the approved grant amounts pass the committee, they must then go before the Governance Committee.
- IV. Identifying a WIC Funding Formula that is fair and equitable to all parties is the primary purpose of the committee.
- V. The committee may meet again throughout the year when/if more funding becomes available for distribution.
