

Transaction Processing

- I. Authorized WIC vendors must contract with a WIC certified Third Party Processor (TPP) for all transaction and payment processing.
- II. The TPP must be able to connect with the EBT host processor to provide the most up to date version of the Authorized Product List (APL) to vendors every day.
- III. Authorized WIC vendors must utilize ECR/POS systems that are certified as compatible with Utah WIC systems and cards.
- IV. A vendor that fails to properly maintain its store ECR/POS system, or changes TPP's without notice to the state agency, may be subject to a civil money penalty (CMP) or removal from the Utah WIC Program.
