

UHT milk

Ultra high temperature (UHT) milk is a type of milk that does not need to be refrigerated before opening. After the container is opened, keep it in the fridge or use the milk within 2 hours.

The following are WIC-allowed UHT milk:

Skim/1%: Dairy Pure, Gossner, Natrel, Parmalat

2%: Dairy Pure, Gossner, Natrel, Parmalat

Whole: Gossner, Lala, Parmalat

Note: All UHT milk is in quart-sized containers.

Note: Different fat percentages may be different colors. Be sure to read the label.
