

## **Funding Committee**

- I. The WIC Funding Committee is made up of the State WIC Director, the State Budget Coordinator, and members of the Utah Association of Local Health Officers as directed by the Utah Individual Public Health Services (IPHS) Executive Committee. Any local health officer or local WIC director is welcome to attend.
- II. The funding committee meets annually to discuss the estimated funding available for the upcoming federal fiscal year. A funding formula is agreed upon and used for the entire year.
- III. Once the approved amounts pass the Utah Association of Local Health Officers, they must go before the IPHS Executive Committee for a recommendation to Governance Committee for final approval.
- IV. Identifying a WIC Funding Formula that is fair and equitable to all parties is the primary purpose of the committee.
- V. The committee may meet again throughout the year when/if more funding becomes available for distribution.
